TRAILER ONLY SCALE SYSTEM

DUAL RIDE HEIGHT CONTROL VALVE / DUAL PORT SENSOR

VSL VULCODER - 1 LEAD
DUAL AIR SENSOR

G-300D

SYSTEM INCLUDES:

(1) **Cxx ORANGE CABLE**
(1) **V26 VSL VULCODER - 1 LEAD**
(1) **L21 AIR SENSOR - DUAL PORT**
(2) **49-10116-001 RIDE HEIGHT CONTROL VALVE** (OPTIONAL)

NOTE: A narrow bandwidth and quick response ride height control valve is included to optimize accuracy.

The Vulcan corrosion resistant, stainless steel, air sensor and state-of-the-art electronics provide axle and/or payload weights for trailers with air suspensions. The air sensor is altitude and temperature compensated to enhance performance and accuracy. Vulcan VSL electronics allow your trailer to drop and hook to any tractor with Vulcan VSL electronics to provide total payload weight.

NOTE: Not suitable for all truck air suspensions. Please contact factory for details.
