- (4) L02 15" SUPER-BEAM LOAD CELLS
- (4) H32 CENTER HANGER MOUNTING KITS

NOTE: Not suitable for trailers with No-Hop design suspensions. Please contact factory for details.

The unique Vulcan center hanger mounting kit and Super-Beam load cell scale system provides a proven, accurate, and reliable way to obtain axle and/or payload weights on trailers with spring suspensions. The system utilizes four center hanger mounting kit and load cell assemblies allowing you to scale spring suspension trailers with three or four axles. Vulcan VSL electronics allow your trailer to drop and hook to any tractor with VSL electronics to provide total payload weight.
